To Whom It May Concern,

It is our sincere pleasure to recommend the quality catering services of Organic Kids Catering, formerly known as Boaden Catering.

For over eight years Hester How Daycare has benefited from the outstanding service that Organic Kids Catering has provided, with the exception of a six month period in 2009 when we left the arrangement to try out a new caterer promising outstanding quality and organic content for less than we were already paying. After being devastatingly disappointed with the choice we had made, Louie Tassone and his team at Boaden catering welcomed us back with open arms.

Organic Kids catering offers unparalleled quality, integrity and service. Across the board we have always been pleased with the professional manner in which the staff at Organic Kids Catering conduct their daily business.

Organic Kids Catering exemplifies outstanding communication skills. They are always accessible, with phone calls answered by a person, never voice mail. They are approachable and accommodating to our particular needs, any time we request adjustments to meals/snacks, with respect to numbers or content and they are timely with their advance notice of menu changes and substitutions.

Additionally, we can't say enough about how pleased we are with how the menus have evolved over the years. While past menus have always offered colourful, diverse, multi-cultural and nutritious meals, we are thrilled at the current inclusion of organic content, particularly organic milk, whole grains and alternative ingredients, i.e. quinoa and frozen yogurt. The food is consistently delivered within the agreed upon time frame, with hot food arriving hot, cold food arriving cold, and individual children's menu substitutions arriving clearly labelled.

Overall, Organic Kids catering is a leader in the field of nourishing young children and would be an asset to any organization looking for a reliable, high quality caterer.
